International Society of Endocrinology Symposium at COLAEN 2015, Brazil

As part of the International Society of Endocrinology’s (ISE) aim to foster the globalisation and inter-regional development of Endocrinology we provide sponsored symposia to support our members local meetings.

This year we are delighted to support the Congress of our regional affiliates the Latin American Federation of Endocrine Societies (FELAEN) taking place in Porto de Galinhas, in Pernambuco, Brazil.

ISE Neuroendocrine Symposium
Friday 22nd May - 11:40am – 13:20pm

An ISE led Symposium featuring 1 local and 3 esteemed international figureheads in endocrinology presenting important innovations & cutting-edge research from around the globe.

Dr. Lucio Vilar, Brazil - Cushing’s disease treatment - The role of combined medical treatment.

Dr. Janet Schlechte, USA - Dopamine agonists withdrawal: when, how long and how often?

Dr. Gudmundur Johannson, Sweden - Optimising Pituitary Replacement Therapies.

Dr. Aart van der Lely, Netherlands - What do type1 DM patients and acromegaly patients have in common?

For more information on what promises to be a fantastic regional congress with a unique Latin American flavour, visit: www.endocrinologiape.com.br/endorecife2015/index
